**SEA FISHERIES  
STATISTICAL  
TABLES  
1968**

*LONDON*  
HER MAJESTY'S STATIONERY OFFICE  
1969

## FOREWORD

The Sea Fisheries Statistics for 1968 largely follow the layout of the 1967 publication. The tables refer, as far as possible, to the United Kingdom with separate figures for England and Wales, Scotland and Northern Ireland. Additional statistics relating to Scotland are published annually in the Scottish Sea Fisheries Statistical Tables.

In some cases figures for the various parts of the United Kingdom are not strictly comparable and differences are explained in the headings and footnotes of the tables. More general definitions are given in the Explanatory Notes on Page 1.

These tables are intended to provide a broad picture of the United Kingdom fishing industry and its operations. Requests for more detailed information should be addressed to:

The Secretary,  
Ministry of Agriculture, Fisheries and Food,  
(Fishery Statistics Section),  
Whitehall Place East,  
London, S.W.1.

# CONTENTS

Unless otherwise stated all tables relate to the United Kingdom with, where available, separate figures for England and Wales, Scotland and Northern Ireland.

| Table | Landings of Fish                                                                                                                                                                                                                                     | Page  |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 1.    | <b>Total supplies of fresh and frozen fish in 1938, 1948, 1951, 1960 and 1964-68:</b><br>Quantity and value of demersal fish, herring, other pelagic fish, shellfish and total all fish.                                                             | 2-3   |
| 2.    | <b>Landings by species:</b> . . . . .<br>Quantity and value of fresh and frozen fish landed by British and foreign fishing vessels in 1968.                                                                                                          | 4-5   |
| 3.    | <b>Quantity and value of principal varieties of fresh and frozen fish landed by British and foreign fishing vessels in 1938, 1948, 1951, 1960 and 1964-68.</b>                                                                                       | 6-9   |
| 4.    | <b>Great Britain—British landings in 1968 by species at each major port in England and Wales and district in Scotland</b> . . . . .                                                                                                                  | 10-14 |
| 5.    | <b>Landings in 1968 of fresh and frozen fish by foreign fishing vessels at British fishing ports</b> . . . . .<br>By main species and nationality of vessels.                                                                                        | 15    |
| 6.    | <b>British landings of demersal and pelagic fish (excl. livers) in 1968 by region of capture</b> . . . . .                                                                                                                                           | 16-19 |
| 7.    | <b>Fishing effort of British vessels in 1968 by region of capture and method of fishing:</b> . . . . .<br>Number of arrivals, hours fishing and days absent; average tonnage per voyage (England and Wales only); quantity and value of fish landed. | 20-23 |
| 8.    | <b>British landings of fresh and frozen demersal fish by main vessel length groups in 1967 and 1968</b> . . . . .                                                                                                                                    | 23    |
| 9.    | <b>Landings by British distant water vessels (140 ft. and over registered length):</b> . . . . .<br>Quantity and value of landings at major ports in 1964-68.                                                                                        | 24    |
| 10.   | <b>Landings of fish frozen at sea by British vessels in 1965-68:</b> . . . . .<br>Quantity only of main kinds of fish.                                                                                                                               | 24    |
| 11.   | <b>Great Britain—Average annual values of fish landed by British vessels in 1938, 1948, 1951, 1960 and 1964-68:</b> . . . . .<br>Showing also separate figures for England and Wales and Scotland.                                                   | 25-27 |

## Consumption Level Estimates

|     |                                                                                                                                                      |    |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| 12. | <b>Supplies per head per annum of fish moving into consumption in the United Kingdom pre-war and in 1948, 1951, 1955, 1960 and 1964-68</b> . . . . . | 28 |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------|----|

## Fishermen and Fishing Vessels

|     |                                                                                                                      |    |
|-----|----------------------------------------------------------------------------------------------------------------------|----|
| 13. | <b>Employment of fishermen as at 31st December of each of the years 1938, 1948, 1951, 1960 and 1964-68</b> . . . . . | 28 |
|-----|----------------------------------------------------------------------------------------------------------------------|----|

## EXPLANATORY NOTES

1. The various species of fish are divided into three main groups: demersal, pelagic and shellfish. The names of the kinds of fish included in each group, are shown in table 2.
2. The term "demersal" fish covers species living on or near the sea bed; "pelagic" fish are species found mainly in coastal waters in shoals near the surface of the sea.
3. Quantities of headless or filleted-at-sea fish landed by British and foreign fishing vessels are shown in terms of equivalent landed weight (i.e. head on, gutted) except in the trade tables (17 et seq) where actual product weights are shown.
4. The figures of "fish livers" are expressed as the raw equivalent of any liver oils landed.
5. The average values of fish quoted in table 11 are those realised at first-hand sales and apply to all fish sold regardless of whether it was sold for human consumption or for other uses (e.g. fish meal, animal feeding stuffs).
6. The term "British landings" relates to the landings of British registered fishing vessels.
7. The sign ... indicates a quantity of less than 500 cwts or a value less than £500 according to the table.

(a) Salmon and trout are excluded.

The quantity of boneless fish is expressed in terms of landed weight equivalent (head on, gutted). The actual weight of imported boneless fish is shown in tables 17 and 18. Imports include semi-preserved (salted, in brine, dried or smoked) fish.

(b) Pelagic fish, other than herring, are not separately distinguishable in the import statistics. These imports are relatively small and are included with demersal fish.

(a) All average values are based on landings in England and Wales only. Landings in Scotland were either non-existent or negligible and included with 'other' fish.

(b) Average values for Great Britain not available. Landings in Scotland of these species in the years indicated were included with 'Other Demersal' or 'Other Shellfish' as the case may be.

## Consumption Level Estimates for Fish

**TABLE 12**

**Supplies per head per annum moving into consumption in the United Kingdom**

| lb. per head                                       |             |             |             |             |             |             |             |             |             |             |
|----------------------------------------------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|

| <b>Total (edible weight)</b>                       | <b>26.2</b> | <b>31.2</b> | <b>24.0</b> | <b>21.3</b> | <b>19.4</b> | <b>20.8</b> | <b>20.5</b> | <b>19.3</b> | <b>19.9</b> | <b>20.8</b> |

**Notes** (i) These statistics are based on total supplies moving into consumption and as such measure disappearance rather than final consumption, since it is not practicable to measure changes in wholesale and retail stock levels.

(ii) The figures include consumption not only in private households but also in institutions and catering establishments, and by H.M. Forces in the United Kingdom. Comprehensive tables of food consumption levels in the United Kingdom are published annually in the Board of Trade Journal and in the Annual Abstract of Statistics.

(iii) More detailed estimates of the consumption of fish and other foods in private households are published in the annual reports of the National Food Survey Committee.

**N.B.**—The series for "Fresh, frozen and cured" fish has been revised as from 1960 and broken down into "Herring" and "Other": it is not strictly comparable with the series for earlier years.

| 1968 | 9,420                 | 2,821                  | 7,927              | 1,740              | 540                | 198                | 17,887             | 4,759              |

(a) Prior to 1952 figures were based on information supplied by the Registrar General of Shipping and Seamen.

Since 1952 figures have been supplied by the District Fishery Officers of the Ministry of Agriculture, Fisheries and Food.

(b) Prior to 1961 Scottish figures were as at 30th November of each year.

(c) From 1966 these figures exclude "hobby" fishermen, i.e. fishermen who do not fish commercially

(a) All the stern trawlers of 140 ft. and over reg. length were—with one exception (at Grimsby)—freezers, filleters/freezers or factory vessels.  
(b) From 1966 figures for England and Wales exclude vessels registered as fishing vessels which were not used at all for commercial fishing. The corresponding series of figures for Scotland and Northern Ireland exclude vessels not engaged in commercial fishing.
