

PROTOCONCHS OF MURICIDAE PART 2

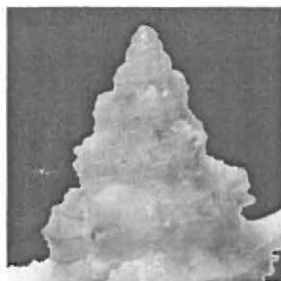

Heiman E.L. *) & Mienis H.K. **)

Abstract: This note is a continuation of a study published in Heiman & Mienis (2010) and contains ten pictures of the protoconchs.

Key words: Mollusca, Gastropoda, Muricidae, taxonomy, diagnostic characters, protoconchs.

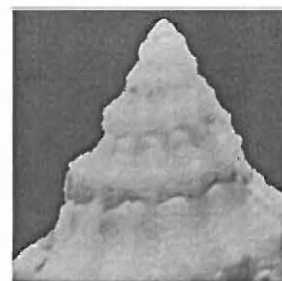

1. *Boreotrophon ithiotoma*
Dall, 1919; E. Kamchatka.

2. *Chicoreus dodongi*
Houart, 1995 PI

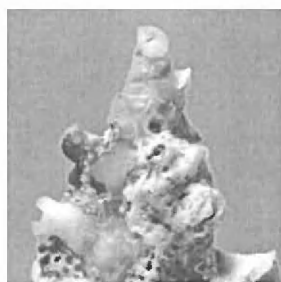

3. *Chicoreus ryukyuensis*
Shikama, 1978; 30 mm,
Japan

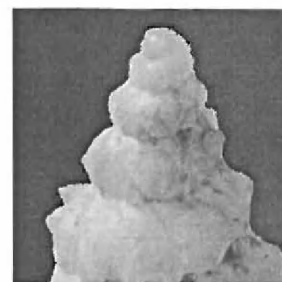

4. *Ergalatax martensi*
(Schepman, 1892); E. Sinai

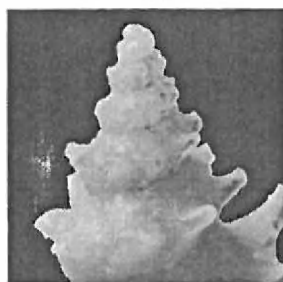

5. *Fuegotrophon pallidus*,
Powell, 1951; 20 mm,
S. Argentina

6. *Pterynotus angasi*
(Crosse, 1863) ; NSW
Australia

7. *Trophon abyssorum*
Verril, 1885; 13 mm; USA,
N. Carolina

9. *Trophonopsis carinatus*
(Bivona, 1832) Spain

10. *Trophon purdeyi*
Houart, 1983
South Africa

11. *Typhis yatesi*
Crosse, 1865
Australia, Victoria.
