Papers for Students No. 7 (revised 2nd edition)

GUIDE TO SELECTED LITERATURE ON BRITISH MOLLUSCA

by

Stella M. Turk, M.Sc., F.Z.S.

INTRODUCTION

Since the publication of the first edition of this list (Papers for Students No. 7, 1969) a wealth of material has been published. Recent issues of the Mollusca Section of the Zoological Record list three to four thousand books and papers for many countries, some of which concern British Mollusca, but this list must be very selective with about two hundred titles. Emphasis is on identification, but works on various other aspects of the study of Mollusca are included (there are no faunal lists, which may be a subject for a future Paper for Students). Basic texts will indicate more detailed references on particular topics. As different works are needed for different ages and stages, introductory guides for beginners are listed as well as specialised treatises for advanced students.

SOURCES FOR OBTAINING AND CONSULTING LITERATURE

LIBRARIES: Local libraries are linked through county library services to the national inter-library loans system, so that it is possible to obtain most papers and books from other county libraries and national and academic libraries.

MUSEUMS: Some museums have general works on Mollusca, and most have regional publications, some of which contain local lists.

ENVIRONMENTAL RECORD CENTRES: With the backing of the Biological Records Centre, there are many regional centres, usually in county museums, which are a source for manuscript material as well as references to published work.

BOOKSELLERS: Catalogues of new and antiquarian booksellers serve to form reference lists and may be collected with this in mind. There is great variation in the prices of second-hand books, so it is as well to get in touch with many firms, at home and abroad.

PHOTOCOPY & MICROFILM SERVICES: Local and national libraries now supply copies. The General Library of the British Museum (Natural History) has a photocopying unit and supplies copies by post.

SOCIETIES AND THEIR PUBLICATIONS: Back numbers of publications are often available, at reduced cost for members. Addresses of national societies can usually be obtained from the Council for Nature or larger public libraries. Authors of papers in scientific

journals can buy copies of their articles as off-prints, which form a basis of exchange with other authors, but one should not request such off-prints lightly.

REFERENCE LIST OF ADDRESSES

- British Museum (Natural History), Cromwell Road, London, SW7 5BD
(list of publications available).
- Conchological Society of Great Britain and Ireland: present Hon. Sec.
Mrs. E.B. Rands, 51, Wychwood Avenue, Luton, Beds., LU2 7HT.
(publications: Journal of Conchology; Conchologists' Newsletter;
Papers for Students; (with the Institute of Terrestrial Ecology)
Atlas of the non-marine Mollusca of the British Isles).
- Council for Nature, c/o the Zoological Society of London (q.v.).
- Field Studies Council, 9 Devereux Court, Strand, London, WC2R 3JR
(publishes Field Studies; holds courses at its field centres).
- Freshwater Biological Association, The Ferry House, Far Sawrey,
Ambleside, LA22 0LP (publications: F.B.A. Scientific Publications).
- Institute of Terrestrial Ecology, 68 Hills Road, Cambridge; includes the
Biological Records Centre, Monks Wood Experimental Station, Abbots
Ripton, Huntingdon.
- International Commission for Zoological Nomenclature (ICZN), c/o British
Museum (Natural History) (q.v.).
- Linnean Society of London, Burlington House, Piccadilly, London, W1V 0LQ
(publications: Biological and Zoological Journals; Synopses of
the British Fauna; has extensive biological library).
- Malacological Society of London: present Hon. Sec. A. Bebbington, M.Sc.,
Dept. of Science, Bristol Polytechnic, Redland Hill, Bristol, BS6 6UZ
(publications: Journal of Molluscan Studies, formerly Proceedings
of the Malacological Society of London).
- Marine Biological Association of the United Kingdom, Citadel Hill,
Plymouth, PL1 2PB (publications: Journal of the Marine Biological
Association of the U.K.; Plymouth Marine Fauna).
- Ministry of Agriculture, Fisheries and Food, Fisheries Laboratory,
Remembrance Avenue, Burnham-on-Crouch, Essex, CMO 8HA (publications:
Shellfish Information leaflets).
- Palaeontographical Society, c/o Institute of Geological Sciences,
Exhibition Road, London, SW7 5BD (publications: Monographs of the
Palaeontographical Society; catalogue listing contents of annual
volumes since 1847/48).
- Ray Society, c/o British Museum (Natural History) (q.v.) (publications:
Ray Society Monographs).
- Royal Society, 6 Carlton House Terrace, London, SW1Y 5AG (see Katz & Massey).
- School Natural Science Society: present address of Hon. Sec., 2 Bramley
Mansions, Berrylands Road, Surbiton, Surrey; publications from
M.J. Wootton, 44 Claremont Gardens, Upminster, RM14 1DN; see entry
under TUKE 1974 (publication: Natural Science in Schools).

University Microfilms Ltd., Students' Section, 18 Bedford Row,
London, WC1R 4EJ (supplies copies of Ph.D. theses from various
countries on microfilm or photocopy form).

Zoological Society of London, Regent's Park, London, NW1 4RY
(publications: Journal of Zoology (formerly Proceedings of the
Zoological Society of London); Transactions of the Zoological
Society of London; Zoological Record (has comprehensive zoological
library)).

SUBJECT INDEX

ANATOMY and MORPHOLOGY (see also GENERAL and IDENTIFICATION):

COOKE, 1895:	general.
FRETTER, 1968:	various studies.
FRETTER & GRAHAM, 1962:	prosobranchs, functional.
FRETTER & GRAHAM, 1976-in progress:	prosobranchs, general.
FRETTER & PEAKE, 1975:	pulmonates.
NIXON & MESSENGER, 1977:	cephalopods.
