

Best oral presentation award 2015

VLIZ Young Marine Scientists' Day

VIVES, Brugge (20 February 2015)

Kindly find below the alphabetical list of the oral 'pitching' presentations, tick your **top three** and turn in the form when leaving the plenary session room at **14:15**.

	De Clercq Maikel Buried beneath the sea - mapping the prehistoric landscapes of the Belgian Continental Shelf
	de Jong Maarten F. The future of sand extraction in the Dutch part of the North Sea
	De Rijcke Maarten The combined temperature and nutrient load effects do not explain the development of harmful algal blooms
	De Tender Caroline Metagenomics@Sea: a floating house in a marine environment
	De Witte Bavo Why not eat wild mussels?
	Fettweis Michael Seasonality in concentration, size and settling velocity of muddy marine snow in the southern North Sea and their effects on the sea bed
	Geerts Lindsay Oxygen deficiencies in the Schelde and Elbe Estuary: same difficulties, different causes
	Komjani Homayoon One wavy day at the beach
	Mertens Kenneth Neil Marine dinoflagellate cysts as tools in palaeoecology
	Schoutens Ken Response of morphology and tissue properties of tidal marsh plants to wave activity
	Scoma Alberto Long-chain hydrocarbon degraders from deep-sea
	Soetaert Maarten Electrifying a Benthos Release Panel to retain sole.
	Sotillo Alejandro The costs of synanthropy: a long term study on the human-dependent population of Lesser Black-backed gulls in Belgium
	Stark Jeroen Do marshes attenuate storm surges? Observations of peak water levels along channelized marsh transects
	Stienen Eric W.M. Long-term studies make sense: 50 years of beached bird surveys suggest a strong decrease in oil pollution in Belgian marine waters
	Sys Kim VALDUVIS, a new way of assessing and communicating the sustainability of fishing activities
	Sys Klaas Competitive interactions between pulse and beam trawlers in the North Sea
	Tello Ruiz Manases Towards a ship manoeuvring model in shallow water waves
	Tonné Nathalie Revealing the internal anatomical development of mangrove seedlings using Computed Tomography and microtomy
	Van Cauwenberghe Lisbeth Unraveling the sources of marine microplastics: your daily contribution?
	van de Velde Sebastiaan Electrical cooperation by cable bacteria has large impact on coastal sediments
	van der Ven Rosa Genetic structure and variable connectivity in the stony coral <i>Acropora tenuis</i> in Kenya and Tanzania
	Vanhellemont Quinten Sediment dynamics in the Belgian coastal zone observed from space
	Vekeman Bram Exploring the diversity of methane-oxidizing bacteria in marine ecosystems
	Verhelst Pieterjan Estuarine behaviour of European silver eel (<i>Anguilla anguilla</i>) in the Scheldt Estuary: a slippery path
