FOREWORD

This catalogue of the "Halewyck Library" of the Institute for Marine Scientific Research (IZWO) comprises all the publications available, with the exception of the collection of about 6300 reprints of scientific articles. All the publications pertain to marine sciences and some closely related fields.

The catalogue is subdivided in 10 categories according to the type of the publication: atlases, bibliographies, books, journals, meetings, musea and institutes, newsletters, reports, separate issues, and theses. Within each category the titles of the publications are listed alphabetically, in the first column, followed by the name of the publisher. If a title starts with an article, it was not taken into consideration and mentioned between brackets (e.g. "(The) Journal of the Linnean Society" can be found under "Journal ...").

For journals and newsletters the years for which issues are available are given in the second column (e.g. 1958-1965). If the publication is still being received, the year is followed by a dash (e.g. 1970-). For all other types of publications the publishing date is given whenever available. In the last column the country of publication is mentioned, for international organizations "Int.Org." is used.

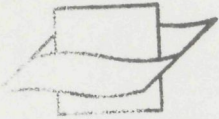

Serial publications of which less than five issues are available in the "Halewyck Library" are accommodated in the category "Separate issues".

The "Halewyck Library" is open to the public, and the catalogue is available at nominal cost, for personal use, copies of articles can be provided upon request.

The Institute for Marine Scientific Research is grateful to The Provincial Government of the West-Flanders and to the late Mr. Raoul Halewyck who made it possible to acquire the collections.

Sincere thanks are due to Mrs. Ingrid Dobbelaere for her dedication to the library's management and for compiling this catalogue.

FOREWORD

This catalogue of the "Halewycq Library" of the Institute for Marine Scientific Research (IZMO) comprises all the publications available, with the exception of the collection of about 6000 reports of scientific articles. All the publications pertain to marine sciences and some closely related fields.

The catalogue is subdivided in 10 categories according to the type of the publication: atlases, bibliographies, books, journals, working papers and institutes, newsletters, reports, separate issues, and theses. Within each category the titles of the publications are listed alphabetically, in the first column, followed by the name of the publisher. If a title starts with an article, it was not taken into consideration and mentioned between brackets (e.g. "(The) Journal of the Linnean Society" can be found under "Journal...").

For journals and newsletters the year for which issues are available are given in the second column (e.g. 1958-1962). If the publication is still being received, the year is followed by a dash (e.g. 1970-). For all other types of publications the publishing date is given whenever available. In the last column the country of publication is mentioned, for international organizations "Int. Org." is used.

Serial publications of which less than five issues are available in the "Halewycq Library" are recommended in the category "Separate Issues".

The "Halewycq Library" is open to the public, and the catalogue is available at nominal cost. For personal use, copies of articles can be provided upon request.

The Institute for Marine Scientific Research is grateful to the Provincial Government of the West-Flanders and to the late Dr. August Halewycq who made it possible to acquire the collections.

Sincere thanks are due to Mrs. Ingrid Hobbelaers for her dedication to the library's management and for compiling this catalogue.
