## Inleiding

Voor de vijfde maal op rij slagen we erin een overzicht te geven van de midmaandelijke watervogeltellingen in onze regio.

De resultaten werden eveneens reeds overgemaakt aan het Instituut voor Natuurbehoud, organisator van de tellingen op nationaal vlak.

Dank zij de welwillende medewerking van Paul Willems (lay-out en grafieken) en Koen Verbanck (foto's) werd het boekje in een nieuw kleedje gestopt. Verder werden de aantalsevoluties van enkele relevante soorten op de Put van de Blauwe Toren en de Put van Zevekerke van de laatste 22 jaar in grafiek omgezet. Het was eveneens de bedoeling om een kleine bespreking in te lassen, maar door tijdsgebrek is deze uitgesteld naar volgend jaar.
