

INTERGOVERNMENTAL OCEANOGRAPHIC COMMISSION
(of UNESCO)

**LIST OF IOC DEPOSITORY CENTRES FOR PUBLICATIONS
AND ASFIS CENTRES ***
(as at 1 October 1998)

As part of its services to Member States, the Intergovernmental Oceanographic Commission has agreed to supply one officially designated IOC Depository Centre in each country with copies of its publications and main documentation.

This Depository Centre ought to be an active library and documentation centre of a leading research institute, or university department, specialized in marine sciences, and readily accessible to users from other academic and governmental institutions.

These Depository Centres are placed on a free distribution list and, in turn, accept a number of responsibilities:

- (i) to catalogue acquisitions;
- (ii) to disseminate this information to the scientific community in their respective countries;
- (iii) generally to ensure access to these records;
- (iv) to respond, as far as possible, to requests for the aforementioned publications and documentation from the scientific community, as well as members of the general public, in their respective countries.

One of the main aims of this scheme is to permit the IOC Secretariat, when it receives a request for publications or documents from a member of the general public, to refer the request to the IOC Depository Centre in that person's country.

The IOC Secretariat is now providing all new publications including Newsletters through its WWW Server (<http://ioc.unesco.org/iocweb>).

* These addresses are filed in the alphabetical order of countries, in French, since they are used for mailing from France.
