PELAGIC FISH COMMITTEE

by

R. S. Bailey

1985

BELGIUM

(R. De Clerck)

No market sampling of pelagic fish was carried out in 1985. Research vessel surveys for juvenile herring and sprat were continued, using bottom trawl, as given in the table below. (The research was limited to density and length measurements).

Research vessel catches

Area	Season	Objectives
IV c Belgian coast	April and September	Recording densities of immature herring and sprat

CANADA

No report received.

DENMARK

No report received.

FINLAND

(R. Parmanne & V. Sjöblom)

No work carried out on pelagic fish other than that reported to the Baltic Fish Committee.
