

PELAGIC FISH COMMITTEE

by

R.S. Bailey

1986

BELGIUM

(R. De Clerck)

No market sampling of pelagic fish has been carried out in 1986.
Research vessel surveys with bottom trawl on the juvenile herring
and sprat were continued as given in the table below.

The research was limited to density and length measurements.

Research vessel catches

Area	Season	Objectives
IV c Belgian coast	April and September	Recording densities of immature herring and sprat

Finland

(R. Parmanne & V. Sjöblom)

No work carried out on pelagic fish other than that reported
to the Baltic Fish Committee.
