--------------	--------	---------	--------------------------

**A type species for the genus *Collatus* Rubio & Rolán, 2018
(Gastropoda: Vitrinellidae)**

Federico RUBIO (1) & Emilio ROLÁN (2)

- (1) Pintor Ribera, 4-16^a, 46930 Quart de Poblet (Valencia) Spain
(2) Museo de Historia Natural, Parque Vista Alegre, Campus norte,
15782 Santiago de Compostela, Spain

In a recent work by Rubio & Rolán (2018) published in the journal *Gloria Maris* vol. 57(1), the new genus *Collatus* was described. Unfortunately, the authors forgot to include the name of the type species, which is designated now.

Genus *Collatus* Rubio & Rolán, 2018.

Type species: *Collatus regularis* Rubio & Rolán, 2018. Holotype in MNHN IM 2000-33889.

Type locality: New Caledonia, Secteur de Touho, Récif Extérieur, Passe de Touho, 20 m.
