Appendixes

- 1. Individual questions for the Mediterranean and the Black Sea by Protocol Article: country maps and totals
- 2. Stocktaking questionnaire for the Mediterranean
- 3. Stocktaking questionnaire for the Black Sea

Question 1

Have bodies or mechanisms of institutional coordination been established at the national, regional and local levels for the purposes of ICZM in the following categories?

a. Between the marine and land parts of the coast

Have bodies or mechanisms of institutional coordination been established at the national, regional and local levels for the purposes of ICZM in the following categories?

b. Horizontally between different services and other organisations at the same administrative or geographical level

Have bodies or mechanisms of institutional coordination been established at the national, regional and local levels for the purposes of ICZM in the following categories?

c. Vertically between different services and other organisations at different administrative or geographical levels

Have other existing measures been adapted in a manner consistent with this article of the Protocol?

Have other existing measures been adapted in a manner consistent with the objectives and principles of integrated management of the coastal zone?

Do national legal instruments include one of the following measures or criteria for sustainable use of the coastal zone?

(a) identifying and delimiting areas in which urban development and other activities are restricted or, where necessary, prohibited

Do national legal instruments include one of the following measures or criteria for sustainable use of the coastal zone?

b) limiting the linear extension of urban development and the creation of new transport infrastructure along the coast

Do national legal instruments include one of the following measures or criteria for sustainable use of the coastal zone?

(c) providing for freedom of access by the public to the sea and along the shore

Do national legal instruments include one of the following measures or criteria for sustainable use of the coastal zone?

(d) restricting or, where necessary, prohibiting the movement and parking of land vehicles, as well as the movement and anchoring of marine vessels, in fragile natural areas on land or at sea, including beaches and dunes

Question 12

Are there any specific economic indicators relating to the sustainable use of the coastal zone?

Are measures in place in coastal strategies and coastal plans and programmes and when issuing authorizations to protect the characteristics of the following specific coastal ecosystems?

1. Wetlands

(a) Are measures in place to regulate or, if necessary, prohibit activities that may have adverse effects on wetlands and estuaries?

Are measures in place in coastal strategies and coastal plans and programmes and when issuing authorizations to protect the characteristics of the following specific coastal ecosystems?

1. Wetlands

(b) Have degraded coastal wetlands been restored to reactivate their positive role in coastal environmental processes?

Are measures in place in coastal strategies and coastal plans and programmes and when issuing authorizations to protect the characteristics of the following specific coastal ecosystems?

2. Marine habitats

(a) Have measures to ensure the protection and conservation, through legislation, planning and management of marine and coastal areas been adopted?

Are measures in place in coastal strategies and coastal plans and programmes and when issuing authorizations to protect the characteristics of the following specific coastal ecosystems?

2. Marine habitats

(b) Are there any international cooperation programmes, agreements or activities to protect marine habitats?

Are measures in place in coastal strategies and coastal plans and programmes and when issuing authorizations to protect the characteristics of the following specific coastal ecosystems?

3. Coastal Landscapes

Have measures been adopted to ensure the protection of the specific aesthetic, natural and cultural value of coastal landscapes through legislation, planning and management?

Are measures in place in coastal strategies and coastal plans and programmes and when issuing authorizations to protect the characteristics of the following specific coastal ecosystems?

4. Islands

Are the specificities of islands taken into account in coastal strategies, plans and programmes?

Have appropriate measures to preserve and protect the coastal cultural heritage including the underwater heritage been taken?

- the formulation and implementation of coastal and marine strategies, plans and programmes or projects,
- the issuing of authorizations?
- (a) consultative bodies

- the formulation and implementation of coastal and marine strategies, plans and programmes or projects,
- the issuing of authorizations?
- (b) inquiries or public hearings

Question 22

- the formulation and implementation of coastal and marine strategies, plans and programmes or projects,
- the issuing of authorizations?
- (c) partnerships

- the formulation and implementation of coastal and marine strategies, plans and programmes or projects,
- the issuing of authorizations?
- (d) mediation or conciliation procedures with respect to plans, programmes or projects concerning the coastal zone

- the formulation and implementation of coastal and marine strategies, plans and programmes or projects,
- the issuing of authorizations?
- (e) a legal or administrative right to challenge plans, programmes or projects concerning the coastal zone

Have awareness-raising activities, educational programmes, training and public education on ICZM been undertaken at the following levels?

1. national

Have awareness-raising activities, educational programmes, training and public education on ICZM been undertaken at the following levels?

2. regional

Have awareness-raising activities, educational programmes, training and public education on ICZM been undertaken at the following levels?

3. local

Question 28

Have any specialised research centres to further knowledge of ICZM, to contribute to public information and to facilitate public and private decision-making been established?

Question 29

Has a national coastal inventory covering the following information been prepared? (1) Resources & activities

Has a national coastal inventory covering the following information been prepared?

(2) Institutions

Question 31

Has a national coastal inventory covering the following information been prepared?

(3) Legislation & Planning

Has a national strategy for integrated coastal zone management been prepared?

Are there up-to-date assessments of the use and management of coastal zones?

Question 34

Are there any ICZM projects which have or will help the development of the national strategy?

Question 35

Are appropriate EIAs required for public and private projects likely to have significant environmental effects on the coastal zones?

Question 36

Are SEAs of plans and programmes affecting the coastal zone required?

Are there specific guidelines for SEA for coastal zones?

Are there mechanisms for the acquisition, cession, donation or transfer of land to the public domain and institute easements on properties in the coastal zone?

Have measures to adopt relevant economic, financial and/or fiscal instruments intended to support local, regional and national initiatives for the integrated management of coastal zone been adopted?

Question 43

Are there economic, financial and/or fiscal instruments which are potentially counter to the objectives of the integrated management of the coastal zone?

Question 44

Have vulnerability and hazard assessments of coastal zones been undertaken?

Have prevention, mitigation and adaptation measures to address the effects of natural disasters, in particular of climate change, been implemented in coastal areas?

Have measures to maintain or restore the natural capacity of the coast to adapt to changes, including those caused by the rise in sea levels, been adopted?

Do you have a national contingency plan for natural disasters affecting the coastal zone and responsible organisation?

Have the following being defined, established or carried out?

(a) coastal management indicators

Have the following being defined, established or carried out?

(b) up-to-date assessments of the use and management of coastal zones

Have the following being defined, established or carried out?

(c) activities of common interest, such as demonstration projects of integrated coastal zone management

Question 51

(d) centres of specific ICZM scientific capacity in your country?

In contiguous coastal zones are bilateral or multilateral national coastal strategies, plans and programmes coordinated?

Question 53

Is there cooperation by means of notification, exchange of information and consultation in assessing the environmental impacts of plans, programmes and projects?

2. Stocktaking questionnaire for the Mediterranean

Protocol on Integrated Coastal Zone Management in the Mediterranean

IMPLEMENTATION AUDIT QUESTIONNAIRE 2010

PURPOSE

The purposes of this questionnaire are:

- (a) to inform the policy, legal and institutional stock-take required from PAP/RAC as the basis for the future implementation of the ICZM Protocol;
- (b) to support the aim of PEGASO project funded under the EU's Framework 7 Programme to build on existing capacities and develop common novel approaches to support integrated policies for the coastal, marine and maritime realms of the Mediterranean and Black Sea Basins in ways that are consistent with and relevant to the implementation of the ICZM Protocol for the Mediterranean.

INSTRUCTIONS

This audit questionnaire is to be completed for all Mediterranean and Black Sea countries.

- 1. Please provide details on the person completing the questionnaire on the "Respondent Details" sheet as well as the person validating the questionnaire (e.g. Focal Point or other responsible national official) on the "Validation Details" sheet.
- 2. The questions are based on selected individual Articles of the ICZM Protocol for the Mediterranean. The relevant Articles are summarized with the questions (please refer to the Protocol for the full text).
- 3. Respondents may only enter data and information into the white cells of the questionnaire. Text boxes accept a maximum of 2000 characters (approx. 300 words). The green area is 'locked'.
- 4. Please provide a simple 'X' response to ALL questions in the relevant YES, NO, P or N/A columns.
- 5. P = Partially completed N/A = Not Applicable.
- 6. If required, please expand your responses in the boxes provided including comments regarding the level of implementation or efficiency/effectiveness of the measures listed.
- 7. Any supporting documentation should be clearly linked to the relevant question.
- 8. Please, add any information you consider relevant for your country, Mediterranean or Black Sea regions.

GEOGRAPHICAL COVERAGE					
Has the landward limit of your coastal zone according to Article 3 of the Protocol been legally defined at a national scale?	YES	NO	P	N/A	Definition used, kind of legal instrument, supporting maps etc:

Article 3 GEOGRAPHICAL COVERAGE

- 1. The area to which the Protocol applies (...) is (...) defined by:
- (a) the seaward limit of the coastal zone, which shall be the external limit of the territorial sea of Parties; and
- (b) the landward limit of the coastal zone, which shall be the limit of the competent coastal units as defined by the Parties.
- 2. If, within the limits of its sovereignty, a Party establishes limits different from those envisaged in paragraph 1 of this Article, it shall communicate a declaration to the

Depositary at the time of the deposit of its instrument of ratification, acceptance, approval of, or accession to this Protocol, or at any other subsequent time, in so far as:

- (a) the seaward limit is less than the external limit of the territorial sea;
- (b) the landward limit is different, either more or less, from the limits of the territory of coastal units as defined above, in order to apply, inter alia, the ecosystem approach and economic and social criteria and to consider the specific needs of islands related to geomorphological characteristics and to take into account the negative effects of climate change.

CZM LEGISLATION									
	YES	NO	P	N/A					
Has national legislation for Integrated Coastal Zone Management or a Coastal Law been approved?					Title or citation of statute, summary of main articles, current status:				

Article 7 COORDINATION

- 1. For the purposes of integrated coastal zone management, the Parties shall:
- (a) ensure institutional coordination, where necessary through appropriate bodies or mechanisms, in order to avoid sectoral approaches and facilitate comprehensive approaches;
- (b) organize appropriate coordination between the various authorities competent for both the marine and the land parts of coastal zones in the different administrative services, at the national, regional and local levels;

(c) organize close coordination between national authorities and regional and local bodies in the field of coastal strategies, plans and programmes and in relation to the various authorizations for activities that may be achieved through joint consultative bodies or joint decision-making procedures.

2. Competent national, regional and local coastal zone authorities shall, insofar as practicable, work together to strengthen the coherence and effectiveness of the coastal strategies, plans and programmes established.

COORDINATION									
Have bodies or mechanisms of institutional coordination been established at the national, regional and local levels for the purposes of ICZM in the following categories?									
	YES	NO	Р	N/A					
a. Between the marine and land parts of the coast					Describe type of body, titles, legal status etc:				

RDINATION bodies or mechanisms of
ZM in the following categor
rtically between different ces and other nisations at different nistrative or geographical s

PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE										
In accordance with Article 8.2 (a), has a zone not less than 100 meters in width where construction is not allowed been legally established?	YES	NO	P	N/A	Legal instruments, coastal law or planning policy:					

Article 8 PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE

- 1.(...) the Parties shall endeavour to ensure the sustainable use and management of coastal zones in order to preserve the coastal natural habitats, landscapes, natural resources and ecosystems, in compliance with international and regional legal instruments.
- 2. For this purpose, the Parties:
- (a) Shall establish in coastal zones, as from the highest winter waterline, a zone where construction is not allowed. Taking into account, inter alia, the areas directly and negatively affected by climate change and natural risks, this zone may not be less than 100 meters in width, subject to the provisions of subparagraph (b) below. Stricter

national measures determining this width shall continue to apply.

- (b) May adapt, in a manner consistent with the objectives and principles of this Protocol, the provisions mentioned above :
- 1) for projects of public interest;
- 2) in areas having particular geographical or other local constraints, especially related to population density or social needs, where individual housing, urbanisation or development are provided for by national legal instruments.

(...)

PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE								
	YES	NO	Р	N/A				
Have other existing measures been adapted in a manner consistent with this article of the Protocol?								

PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE										
Do national legal instruments include one of the following measures or criteria for sustainable use of the coastal zone?										
	YES	NO	Р	N/A						
(a) identifying and delimiting areas in which urban development and other activities are restricted or, where necessary, prohibited					Illustrate with the type of mechanisms:					

Article 8 PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE (Continued)

- 3. The Parties shall also endeavour to ensure that their national legal instruments include criteria for sustainable use of the coastal zone. Such criteria, taking into account specific local conditions, shall include, inter alia, the following:
- (a) identifying and delimiting, outside protected areas, open areas in which urban development and other activities are restricted or, where necessary, prohibited;

- (b) limiting the linear extension of urban development and the creation of new transport infrastructure along the coast;
- (c) ensuring that environmental concerns are integrated into the rules for the management and use of the public maritime domain;
- (d) providing for freedom of access by the public to the sea and along the shore;
- (e) restricting or, where necessary, prohibiting the movement and parking of land vehicles, as well as the movement and anchoring of marine vessels, in fragile natural areas on land or at sea, including beaches and dunes.

PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE									
Do national legal instruments include one of the following measures or criteria for sustainable use of the coastal zone?									
	YES	NO	Р	N/A					
(c) providing for freedom of access by the public to the sea and along the shore					Illustrate with the type of mechanisms:				

PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE Do national legal instruments include one of the following measures or criteria for sustainable use of the coastal zone? YES N/A NO (d) restricting or, where Illustrate with the type of mechanisms: necessary, prohibiting the movement and parking of land vehicles, as well as the movement and anchoring of marine vessels, in fragile natural areas on land or at sea, including beaches and dunes

ECONOMIC ACTIVITIES YES NO N/A Are there any specific economic indicators relating to the sustainable use of the coastal zone?

Article 9 ECONOMIC ACTIVITIES

- 1. In conformity with the objectives and principles set forth in Articles 5 and 6 of this Protocol, and taking into account the relevant provisions of the Barcelona Convention and its Protocols, the Parties shall:
- (a) accord specific attention to economic activities that require immediate proximity to the sea;
- (b) ensure that the various economic activities minimize the use of natural resources and take into account the needs of future generations;
- (c) ensure respect for integrated water resources management and environmentally sound waste management;

- (d) ensure that the coastal and maritime economy is adapted to the fragile nature of coastal zones and that resources of the sea are protected from pollution;
- (e) define indicators of the development of economic activities to ensure sustainable use of coastal zones and reduce pressures that exceed their carrying capacity;
- (f) promote codes of good practice among public authorities, economic actors and non-governmental organizations.

SPECIFIC COASTAL ECOSYSTEMS,	SPECIFIC COASTAL ECOSYSTEMS, LANDSCPES & CULTURAL HERITAGE

SPECIFIC COASTAL ECOSYSTEMS, LANDSCPES & CULTURAL HERITAGE									
Are measures in place in coastal strategies and coastal plans and programmes and when issuing authorizations to protect the characteristics of the following specific coastal ecosystems?									
	YES	NO	Р	N/A					
3. Coastal Landscapes Have measures been adopted to ensure the protection of the specific aesthetic, natural and cultural value of coastal landscapes through legislation, planning and management?					Type of measure:				

Article 11 COASTAL LANDSCAPES

1. The Parties, recognizing the specific aesthetic, natural and cultural value of coastal landscapes, irrespective of their classification as protected areas, shall adopt measures to ensure the protection of coastal landscapes through legislation, planning and management.

2. The Parties undertake to promote regional and international cooperation in the field of landscape protection, and in particular, the implementation, where appropriate, of joint actions for transboundary coastal landscapes.

SPECIFIC COASTAL ECOSYSTEMS, I	SPECIFIC COASTAL ECOSYSTEMS, LANDSCPES & CULTURAL HERITAGE									
Are measures in place in coastal strategies and coastal plans and programmes and when issuing authorizations to protect the characteristics of the following specific coastal ecosystems?										
	YES	NO	Р	N/A						
4. Islands Are the specificities of islands taken into account in coastal strategies, plans and programmes?					Examples:					

Article 12 ISLANDS

The Parties undertake to accord special protection to islands, including small islands (...)

CULTURAL HERITAGE	CULTURAL HERITAGE									
	YES	NO	Р	N/A						
Have appropriate measures to preserve and protect the coastal cultural heritage including the underwater heritage been taken?					Type of measure:					

Article 13 CULTURAL HERITAGE

- 1. The Parties shall adopt, individually or collectively, all appropriate measures to preserve and protect the cultural, in particular archaeological and historical, heritage of coastal zones, including the underwater cultural heritage, in conformity with the applicable national and international instruments.
- 2. The Parties shall ensure that the preservation in situ of the cultural heritage of coastal zones is considered as the first option before any intervention directed at this heritage.

3. The Parties shall ensure in particular that elements of the underwater cultural heritage of coastal zones removed from the marine environment are conserved and managed in a manner safeguarding their long-term preservation and are not traded, sold, bought or bartered as commercial goods.

PARTICIPATION						
Are the following - the formulation and im - the issuing of authorizations?	meası plemei		used of		the involvement strategies, plans and	
	YES	NO	Р	N/A		
(a) consultative bodies						

Article 14 PARTICIPATION

1. With a view to ensuring efficient governance throughout the process of the integrated management of coastal zones, the Parties shall take the necessary measures to ensure the appropriate involvement in the phases of the formulation and implementation of coastal and marine strategies, plans and programmes or projects, as well as

the issuing of the various authorizations, of the various stakeholders, including:

- the territorial communities and public entities concerned;
- economic operators;
- non-governmental organizations;
- social actors;
- the public concerned.

Such participation shall involve inter alia consultative bodies, inquiries or public hearings, and may extend to partnerships.

PARTICIPATION				
Are the following - the formulation and im - the issuing of authorizations?	measures plementatio	used n of coa		of stakeholders in: programmes or projects,
	YES NO	P N	N/A	
(b) inquiries or public hearings				

Article 14 PARTICIPATION (Continued)

2. With a view to ensuring such participation, the Parties shall provide information in an adequate, timely and effective manner.

3. Mediation or conciliation procedures and a right of administrative or legal recourse should be available to any stakeholder challenging decisions, acts or omissions, subject to the participation provisions established by the Parties with respect to plans, programmes or projects concerning the coastal zone.

PARTICIPATION					
Are the following - the formulation and im - the issuing of authorizations?	measu plemer		used of		ensure the involvement of stakeholders in: and marine strategies, plans and programmes or projects,

(e) a legal or administrative right to challenge plans, programmes or projects concerning the coastal zone					Statute:		

AWARENESS RAISING, TRAINING, EDUCATION & RESEARCH										
Have awareness-raising activities, educational programmes, training and public education on ICZM been undertaken at the following levels?										
	YES	NO	Р	N/A						
1. national					List of most recent activities:					

Article 15 AWARENESS-RAISING, TRAINING, EDUCATION AND RESEARCH

1. The Parties undertake to carry out, at the national, regional or local level, awareness-raising activities on integrated coastal zone management and to develop educational programmes, training and public education on this subject.

- 2. The Parties shall organize, directly, multilaterally or bilaterally, or with the assistance of the Organization, the Centre or the international organizations concerned, educational programmes, training and public education on integrated management of coastal zones with a view to ensuring their sustainable development.
- 3. The Parties shall provide for interdisciplinary scientific research on integrated coastal zone management and on the interaction between activities and their impacts on coastal zones. To this end, they should establish or support specialized research centres. The purpose of this research is, in particular, to further knowledge of integrated coastal zone management, to contribute to public information and to facilitate public and private decision-making.

AWARENESS RAISING, TRAINING,	, EDUCA	ATION 8	& RESEA	RCH	
Have awareness-raising activition levels?	es, edu	cation	al prog	rammes	s, training and public education on ICZM been undertaken at the following

NATONAL COASTAL STRATEGIES,	PLANS .	AND PR	ROGRAI	MMES,	TRANSBOUNDARY COOPERATION
	YES	NO	P	N/A	
Has a national strategy for integrated coastal zone management been prepared?					If 'NO' are there proposals to produce a strategy?

Article 18 NATIONAL COASTAL STRATEGIES, PLANS AND PROGRAMMES

- 1. Each Party shall further strengthen or formulate a national strategy for integrated coastal zone management and coastal implementation plans and programmes consistent with the common regional framework and in conformity with the integrated management objectives and principles of this Protocol (...).
- 2. The national strategy, based on an analysis of the existing situation, shall set objectives, determine priorities with an indication of the reasons, identify coastal ecosystems needing management, as well as all relevant actors and processes, enumerate the measures to be taken and their cost as well as the institutional instruments and legal and financial means available, and set an implementation schedule.

- 3. Coastal plans and programmes, which may be self-standing or integrated in other plans and programmes, shall specify the orientations of the national strategy and implement it at an appropriate territorial level, determining, inter alia and where appropriate, the carrying capacities and conditions for the allocation and use of the respective marine and land parts of coastal zones.
- 4. The Parties shall define appropriate indicators in order to evaluate the effectiveness of integrated coastal zone management strategies, plans and programmes, as well as the progress of implementation of the Protocol.

NATIONAL COASTAL STRATEGIES,	PLANS	AND P	ROGRA	MMES,	TRANSBOUNDARY COOPERATION
	YES	NO	Р	N/A	
Are there up-to-date assessments of the use and management of coastal zones?	YES	NO	P	N/A	Please list with references:

NATIONAL COASTAL STRATEGIES,	PLANS	AND P	ROGRA	MMES,
	YES	NO	Р	N/A
Are there any ICZM projects which have or will help the development of the national strategy?				

Article 19 ENVIRONMENTAL ASSESSMENT

- 1. Taking into account the fragility of coastal zones, the Parties shall ensure that the process and related studies of environmental impact assessment for public and private projects likely to have significant environmental effects on the coastal zones, and in particular on their ecosystems, take into consideration the specific sensitivity of the environment and the inter-relationships between the marine and terrestrial parts of the coastal zone.
- 2. In accordance with the same criteria, the Parties shall formulate, as appropriate, a strategic environmental assessment of plans and programmes affecting the coastal zone.

3. The environmental assessments should take into consideration the cumulative impacts on the coastal zones, paying due attention, inter alia, to their carrying capacities.

ENVIRONMENTAL ASSESSI	MENT

Article 21 ECONOMIC, FINANCIAL AND FISCAL INSTRUMENTS

For the implementation of national coastal strategies and coastal plans and programmes, Parties may take appropriate measures to adopt relevant economic, financial and/or fiscal instruments intended to support local, regional and national initiatives for the integrated management of coastal zones.

there economic, finance or fiscal instruments who potentially counter to ectives of the integrangement of the coaste?

NATURAL HAZARDS & COASTAL E	ROSIO	N			
	YES	NO	Р	N/A	
Have vulnerability and hazard assessments of coastal zones been undertaken?					Examples, titles:

Article 22 NATURAL HAZARDS

Within the framework of national strategies for integrated coastal zone management, the Parties shall develop policies for the prevention of natural hazards. To this end, they shall undertake vulnerability and hazard assessments of coastal zones and take prevention, mitigation and adaptation measures to address the effects of natural disasters, in particular of climate change.

Article 23 COASTAL EROSION

- 1. In conformity with the objectives and principles set out in Articles 5 and 6 of this Protocol, the Parties, with a view to preventing and mitigating the negative impact of coastal erosion more effectively, undertake to adopt the necessary measures to maintain or restore the natural capacity of the coast to adapt to changes, including those caused by the rise in sea levels.
- 2. The Parties, when considering new activities and works located in the coastal zone including marine structures and coastal defence works, shall take particular account of their negative effects on coastal erosion and the direct and indirect costs that may result. In respect of existing activities and structures, the Parties should adopt measures to minimize their effects on coastal erosion.
- 3. The Parties shall endeavour to anticipate the impacts of coastal erosion through the integrated management of activities, including adoption of special measures for coastal sediments and coastal works.
- 4. The Parties undertake to share scientific data that may improve knowledge on the state, development and impacts of coastal erosion.

	YES	NO	Р	N/A

RESPONSE TO NATURAL DISASTER	RS				
Do you have a national	YES	NO	P	N/A	Citation and title of agenciastics.
Do you have a national contingency plan for natural disasters affecting the coastal zone and responsible organisation?					Citation and title of organisation:

Article 24 RESPONSE TO NATURAL DISASTERS

- 1. The Parties undertake to promote international cooperation to respond to natural disasters, and to take all necessary measures to address in a timely manner their effects.
- 2. The Parties undertake to coordinate use of the equipment for detection, warning and communication at their disposal, making use of existing mechanisms and initiatives, to ensure the transmission as rapidly as possible of urgent information concerning major natural disasters. The Parties shall notify the Organization which national authorities are competent to issue and receive such information in the context of relevant international mechanisms.

3. The Parties undertake to promote mutual cooperation and cooperation among national, regional and local authorities, non-governmental organizations and other competent organizations for the provision on an urgent basis of humanitarian assistance in response to natural disasters affecting the coastal zones (...).

Article 27 EXCHANGE OF INFORMATION AND ACTIVITIES OF COMMON INTEREST

1. The Parties undertake, directly or with the assistance of the Organization or the competent international organizations, to cooperate in the exchange of information on the use of the best environmental practices.

- 2. With the support of the Organization, the Parties shall in particular:
- (a) define coastal management indicators, taking into account existing ones, and cooperate in the use of such indicators;
- (b) establish and maintain up-to-date assessments of the use and management of coastal zones;
- (c) carry out activities of common interest, such as demonstration projects of integrated coastal zone management.

TRANSBOUNDARY COOPERATION	l			
	YES	NO	Р	N/A
In contiguous coastal zones are bilateral or multilateral national coastal strategies, plans and programmes coordinated?				

Article 28 TRANSBOUNDARY COOPERATION

The Parties shall endeavour, directly or with the assistance of the Organization or the competent international organizations, bilaterally or multilaterally, to coordinate, where appropriate, their national coastal strategies, plans and programmes related to contiguous coastal zones. Relevant domestic administrative bodies shall be associated with such coordination.

Article 29 TRANSBOUNDARY ENVIRONMENTAL ASSESSMENT

- 1. Within the framework of this Protocol, the Parties shall, before authorizing or approving plans, programmes and projects that are likely to have a significant adverse effect on the coastal zones of other Parties, cooperate by means of notification, exchange of information and consultation in assessing the environmental impacts of such plans, programmes and projects (...)
- 2. To this end, the Parties undertake to cooperate in the formulation and adoption of appropriate guidelines for the determination of procedures for notification, exchange of information and consultation at all stages of the process.

3. The Parties may, where appropriate, enter into bilateral or multilateral agreements for the effective implementation of this Article.

ENDS

3. Stocktaking questionnaire for the Black Sea

Stock-taking on Integrated Coastal Zone Management in the Black Sea

IMPLEMENTATION AUDIT QUESTIONNAIRE 2010

PURPOSE

The purposes of this questionnaire are:

- (a) to inform the policy, legal and institutional stock-take required from PAP/RAC as the basis for the future implementation of the ICZM Protocol;
- (b) to support the aim of PEGASO project funded under the EU's Framework 7 Programme to build on existing capacities and develop common novel approaches to support integrated policies for the coastal, marine and maritime realms of the Mediterranean and Black Sea Basins in ways that are consistent with and relevant to the implementation of the ICZM Protocol for the Mediterranean.

INSTRUCTIONS

This audit questionnaire is to be completed for all Mediterranean and Black Sea countries.

- 1. Articles of the ICZM Protocol for the Mediterranean are provided for information purposes to illustrate the questions
- 2. Please provide details on the person completing the questionnaire on the "Respondent Details" sheet as well as the person validating the questionnaire (e.g. Focal Point or other responsible national official) on the "Validation Details" sheet.
- 3. Respondents may only enter data and information into the white cells of the questionnaire. Text boxes accept a maximum of 2000 characters (approx. 300 words). The green area is 'locked'.
- 4. Please provide a simple 'X' response to ALL questions in the relevant YES, NO, P or N/A columns.
 - \mathbf{P} = Partially completed $\mathbf{N/A}$ = Not Applicable.
- 5. If required, please expand your responses in the boxes provided including comments regarding the level of implementation or efficiency/effectiveness of the measures listed.
- 6. Any supporting documentation should be clearly linked to the relevant question.
- 7. Please, add any information you consider relevant for your country, Mediterranean or Black Sea regions.

GEOGRAPHICAL COVERAGE					
	YES	NO	P	N/A	
Has the landward and/or seaward limit of your coastal zone been legally defined at a national scale?					Definition used, kind of legal instrument, supporting maps etc:

Article 3 GEOGRAPHICAL COVERAGE

- 1. The area to which the Protocol applies (...) is (...) defined by:
- (a) the seaward limit of the coastal zone, which shall be the external limit of the territorial sea of Parties; and
- (b) the landward limit of the coastal zone, which shall be the limit of the competent coastal units as defined by the Parties.
- 2. If, within the limits of its sovereignty, a Party establishes limits different from those envisaged in paragraph 1 of this Article, it shall communicate a declaration to the

Depositary at the time of the deposit of its instrument of ratification, acceptance, approval of, or accession to this Protocol, or at any other subsequent time, in so far as:

- (a) the seaward limit is less than the external limit of the territorial sea;
- (b) the landward limit is different, either more or less, from the limits of the territory of coastal units as defined above, in order to apply, inter alia, the ecosystem approach and economic and social criteria and to consider the specific needs of islands related to geomorphological characteristics and to take into account the negative effects of climate change.

ICZM LEGISLATION					
	YES	NO	P	N/A	
Has national legislation for Integrated Coastal Zone Management or a Coastal Law been approved?					Title or citation of statute, summary of main articles, current status:

Article 7 COORDINATION

- 1. For the purposes of integrated coastal zone management, the Parties shall:
- (a) ensure institutional coordination, where necessary through appropriate bodies or mechanisms, in order to avoid sectoral approaches and facilitate comprehensive approaches;
- (b) organize appropriate coordination between the various authorities competent for both the marine and the land parts of coastal zones in the different administrative services, at the national, regional and local levels;

(c) organize close coordination between national authorities and regional and local bodies in the field of coastal strategies, plans and programmes and in relation to the various authorizations for activities that may be achieved through joint consultative bodies or joint decision-making procedures.

2. Competent national, regional and local coastal zone authorities shall, insofar as practicable, work together to strengthen the coherence and effectiveness of the coastal strategies, plans and programmes established.

PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE						
Has a setback zone where construction is not allowed been legally established?	YES	NO	P	N/A	Legal instruments, coastal law or planning policy:	

Article 8 PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE

- 1.(...) the Parties shall endeavour to ensure the sustainable use and management of coastal zones in order to preserve the coastal natural habitats, landscapes, natural resources and ecosystems, in compliance with international and regional legal instruments.
- 2. For this purpose, the Parties:
- (a) Shall establish in coastal zones, as from the highest winter waterline, a zone where construction is not allowed. Taking into account, inter alia, the areas directly and negatively affected by climate change and natural risks, this zone may not be less than 100 meters in width, subject to the provisions of subparagraph (b) below. Stricter

national measures determining this width shall continue to apply.

- (b) May adapt, in a manner consistent with the objectives and principles of this Protocol, the provisions mentioned above :
- 1) for projects of public interest;
- 2) in areas having particular geographical or other local constraints, especially related to population density or social needs, where individual housing, urbanisation or development are provided for by national legal instruments.

(...

(a) identifying and delimiting areas in which urban development and other activities are restricted or, where necessary, prohibited					Illustrate with the type of mechanisms:		

Article 8 PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE (Continued)

- 3. The Parties shall also endeavour to ensure that their national legal instruments include criteria for sustainable use of the coastal zone. Such criteria, taking into account specific local conditions, shall include, inter alia, the following:
- (a) identifying and delimiting, outside protected areas, open areas in which urban development and other activities are restricted or, where necessary, prohibited;

- (b) limiting the linear extension of urban development and the creation of new transport infrastructure along the coast;
- (c) ensuring that environmental concerns are integrated into the rules for the management and use of the public maritime domain;
- (d) providing for freedom of access by the public to the sea and along the shore;
- (e) restricting or, where necessary, prohibiting the movement and parking of land vehicles, as well as the movement and anchoring of marine vessels, in fragile natural areas on land or at sea, including beaches and dunes.

ECONOMIC ACTIVITIES				
	YES	NO	Р	N/A
Are there any specific economic indicators relating to the sustainable use of the coastal zone?				

Article 9 ECONOMIC ACTIVITIES

- 1. In conformity with the objectives and principles set forth in Articles 5 and 6 of this Protocol, and taking into account the relevant provisions of the Barcelona Convention and its Protocols, the Parties shall:
- (a) accord specific attention to economic activities that require immediate proximity to the sea;
- (b) ensure that the various economic activities minimize the use of natural resources and take into account the needs of future generations;
- (c) ensure respect for integrated water resources management and environmentally sound waste management;

- (d) ensure that the coastal and maritime economy is adapted to the fragile nature of coastal zones and that resources of the sea are protected from pollution;
- (e) define indicators of the development of economic activities to ensure sustainable use of coastal zones and reduce pressures that exceed their carrying capacity;
- (f) promote codes of good practice among public authorities, economic actors and non-governmental organizations.

Article 18 NATIONAL COASTAL STRATEGIES, PLANS AND PROGRAMMES

- 1. Each Party shall further strengthen or formulate a national strategy for integrated coastal zone management and coastal implementation plans and programmes consistent with the common regional framework and in conformity with the integrated management objectives and principles of this Protocol (...).
- 2. The national strategy, based on an analysis of the existing situation, shall set objectives, determine priorities with an indication of the reasons, identify coastal ecosystems needing management, as well as all relevant actors and processes, enumerate the measures to be taken and their cost as well as the institutional instruments and legal and financial means available, and set an implementation schedule.

- 3. Coastal plans and programmes, which may be self-standing or integrated in other plans and programmes, shall specify the orientations of the national strategy and implement it at an appropriate territorial level, determining, inter alia and where appropriate, the carrying capacities and conditions for the allocation and use of the respective marine and land parts of coastal zones.
- 4. The Parties shall define appropriate indicators in order to evaluate the effectiveness of integrated coastal zone management strategies, plans and programmes, as well as the progress of implementation of the Protocol.

	YES	NO	Р	N/A						
Have vulnerability and hazard assessments of coastal zones been undertaken?					Examples, titles:					

Article 22 NATURAL HAZARDS

Within the framework of national strategies for integrated coastal zone management, the Parties shall develop policies for the prevention of natural hazards. To this end, they shall undertake vulnerability and hazard assessments of coastal zones and take prevention, mitigation and adaptation measures to address the effects of natural disasters, in particular of climate change.

Article 23 COASTAL EROSION

- 1. In conformity with the objectives and principles set out in Articles 5 and 6 of this Protocol, the Parties, with a view to preventing and mitigating the negative impact of coastal erosion more effectively, undertake to adopt the necessary measures to maintain or restore the natural capacity of the coast to adapt to changes, including those caused by the rise in sea levels.
- 2. The Parties, when considering new activities and works located in the coastal zone including marine structures and coastal defence works, shall take particular account of their negative effects on coastal erosion and the direct and indirect costs that may result. In respect of existing activities and structures, the Parties should adopt measures to minimize their effects on coastal erosion.
- 3. The Parties shall endeavour to anticipate the impacts of coastal erosion through the integrated management of activities, including adoption of special measures for coastal sediments and coastal works.
- 4. The Parties undertake to share scientific data that may improve knowledge on the state, development and impacts of coastal erosion.
